

1. description of item production and manufacture

Trade name: ORAGUARD ® 297GF

Use: laminating film

manufacturer

Orafol Europe GmbH Orafolstrasse 2 D - 16515 Oranienburg Tel.: + 49 03301 864 0 Fax.: + 49 03301 864 100

E-mail address: p.kanert@orafol.de

<u>Emergency Telephone</u> Information centre for symptom of poisoning Berlin + 49 030 19 240

2. possible dangers

risk to human beings and environment:	none
---------------------------------------	------

3. composition / information about components

chemical characteristics pvc - film polyacrylate adhesive silicone - coated paper

Dangerous contents

none according to our current knowledge

4. recommendations for first medical aid

general information

after inhalation	none
after contact with the skin	none
after contact with the eyes	none
after having swallowed up	none
special information for the doctor	none

5. recommendation for fire fighting

suitable fire extinguishing media

all types

fire extinguishing media which are not suitable for safety reasons

None

special danger by the material itself and from combustion products

hazardous decomposition products at flame temperature: carbon dioxide, carbon monoxide. PVC-films develop gaseous HCl at flame temperature.

special protecting equipment	none
additional information	none

6. recomendations in case of unintentional escape

recommendations in respect of persons:	none
recommendations regarding environment:	none
recommendatin for cleaning:	none
additional information:	none

7. handling and storage

information for use with danger none information regarding fire prevention and explosion none requirements to storage places and storage containers none further information

none

8. limitation of exposition and personal protective equipment

supplementary information regarding construction of technical plants none

contents regarding working place and threshold values that have to be supervised not applicable

personal protective equipment

breathing protection hand protection eye protection body protection hygiene recommendatin

not necessary not necessary not necessary not necessary as usual regarding working place

9. physical and chemical properties phenotype

appearance	solid	
colour	transparent	
odour	none	
data regarding security		
pH-value	not applicable	
boiling point	not applicable	
melting or fusing point	not applicable	
flash point	not applicable	
flammability on solid bases	not applicable	
flammability of gases:	not applicable	
flammable temperature	not applicable	
spontaneous ignition of the solid	not applicable	
spontaneous ignition of the gas	not applicable	
properties assisting inflammation	not applicable	
danger of explosion	not applicable	
limits of explosion	not applicable	
consistency/density	not applicable	
water solubility/fat solubility	not applicable	
viscosity	not applicable	

10. stability and reactivity

conditions to be avoided	not applicable
substances to avoid	not applicable
dangerous decomposition of products	none in case of appropriate use

11. information regarding toxicology

acute toxicology	
classification limit LD ₅₀ /LC ₅₀ -value	
oral	not determined
dermatologic	not determined
inhalative	not determined

irritating effects	
to skin	not applicable
to eyes	not applicable

sensitizing effects

look to general remarks **experience from the practical use** experience classification other experience

not applicable

not applicable

general remarks

Due to generally increasing allergic influences direct contact to the tacky surface should be avoided as far as possible as specific reactions to human skin cannot be execluded.

12. informa	ation regarding ecology	
	information regarding elemination (product life and decomposition)	not determined
	environmental properties	not applicable
	eco- toxic reactions	
	aquatic effects	generally speaking no danger to water (self classification)
	additional ecologic informations	none

13. information regarding recycling

recommendation : waste class similar to household waste, is to be recycled according to the local regulations

14. information regarding transportation

additional information: *not classified as a dangerous product in respect to transportation regulations*

15. prescription / instructions

no dangerous product / composition in respect to the classification of risks EEC No: 594/91 dated 4.3.91 is stuck to, also No: 67/548 (very toxic materials). R phrases: none S phrases: none

16. other information

All information given in this certificate is based on our current knowledge and experience; the figures and individual information do not describe any technical data of a product and do not constitute a warranty of properties as defined by technical specifications.
